

Project Design Phase-II
Data Flow Diagram & User Stories

Date	03 October 2022
Team ID	PNT2022TMID31293
Project Name	Web Phishing Detection
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Input URL	USN-1	As a user, I can input the particular URL	Can access the website	High	Sprint-1
Customer (Web user)	Input URL	USN-2	As a user, I am waiting for verification	Access the legitimate website	High	Sprint-1
Customer Care Executive	Extract input URL feature	USN-3	Need to extract the required feature from the URL which is given by the user	Can compare the websites	High	Sprint-1
Administrator	Guessing whether the URL is legitimate	USN-4	Predicting the URL using the ML algorithm	ML algorithm gives correct prediction	High	Sprint-2
	Result	USN-5	Then the data is used to make the result	To find correct classifier for produce the result	High	Sprint-2
